E. J. Benjamin Auditor

A. GARTENBERG,
Secretary.

Honolulu, February 28, 1899.

CORPORATION NOTICE.

At the annual meeting of shareholders of the Heela Agricultural Company, Ltd., held this day, the following officers were elected for the ensuing year:

M. Louison President
J. P. Mendonca Vice President
C. Bolte Treasurer
A. Gartenberg Secretary and Auditor

A. GARTENBERG,
Secretary.

Honolulu, February 28, 1899.

NOTICE.

Mr. J. Hollander is no longer in our employ. All parties are warned not to make any payments to him for our account.

HYMAN BROS.

Honolulu, February 3, 1899.

THE AVERAGE LIFE.

It is difficult to determine accurately the average life of a good bicycle, but it is estimated that the ordinary person, riding to and from his business and for pleasure, covers about 2,000 miles in a year. There are Sterlings in use that have been ridden nearly 40,000 miles, which would be equivalent to 20 years of average service. One Sterling bicycle was ridden in one year over 38,000 miles, and in doing this the wheels rotated in their bearings nearly 25,000,000 times, and the bearings when examined showed no appreciable wear. The bearings for the '99 model Sterling are the S. & J. special drawn steel, carbonized and ground bone, to diamond temper, and ground on their own centers, making them not only true, but absolutely in line with each other. Felt washers and ball retainers are used throughout. The Pacific Cycle & Manufacturing Co. have 50 of the new improved '99 model Sterling bicycles in transit. They expect part of this shipment to arrive on the Monday.

STILL SANDWICH ISLANDS

ROYAL SOCIETY TRUE TO THE
EARL'S MEMORY.

A British Museum Appropriation is
Granted Only on Condition That
that Name Should be Used.

Word has just been received by the trustees of the Bishop Museum from Dr. Sharpe, chairman of the committee of the Royal Society of England having the work in charge, that the first part of the work on the insects of Hawaii is nearly completed. R. C. L. Perkins, who was here and did the first work, and is writing the book, sends word that he has just received the first colored plates for the book.

There is one very curious circumstance connected with this publication. Throughout the body of the work the Islands will be referred to as Hawaii and Hawaiian. But on the title page they will be spoken of as the Sandwich Islands. The reason for this is that when Captain Cook discovered the Islands he gave them that name in honor of the Earl of Sandwich, then the first lord of the admiralty. The Royal Society has always stuck to that name and it was only on condition that it should be used on the title page that the appropriation for the original research and the publication of the book could be secured from the society.

The collection of Island fauna, including the almost exhaustive representation of Hawaiian entomology, secured by R. C. L. Perkins, under the direction of the Royal Society of England and the Bishop Museum, is now here, but is not yet on exhibition.

The work on the Bishop Museum annex is progressing rapidly, although the contract does not call for its completion for nearly a year yet.

But while the building is in progress the work of getting the exhibits ready, which are to occupy it, is going on. The labor of classifying, indexing and cataloging the exhibits is a Herculean one, and an assistant to the curator has been secured to enable it to be done.

Of the large amount of natural history exhibits ordered from the far famed Ward of Rochester, N. Y., about \$2,000 worth has already arrived.

TO FRIEND KENNY.

Cricket Club Presents an Address to
Retiring Acting Commissioner.

The members of the Honolulu Cricket club gathered upon the lawn of the Commissioner's residence, on the 28th inst., to bid adieu to one of its most loyal friends, last evening, and presented him with a parting address of esteem and regret. The club met at the Arlington and went in a body to Mr. Kenney's residence.

The address, presented by Judge W. L. Stanley, president of the Cricket club, was preceded by happy remarks, which were responded to in an appropriate manner by Mr. Kenney. After a few other events, such as songs and instrumental selections, the party set out on their homeward journey, and broke up.

THE ALAMEDA.

The S. S. Alameda was sighted ten miles off shortly after 1 o'clock this afternoon. Headwinds have probably delayed her.

The Alameda sails tonight at 12.

KAUAI MURDER CASE.

Marshal Brown stated this afternoon that the case of the murder of the native woman on Kauai would, so far as the police department is concerned, be dropped. Pitcomb is the only person against whom the marshal felt justified in bringing proceedings, and the failure to convict settles the matter for all time.

KIPLING'S ROYALTY.

It is understood that Rudyard Kipling is receiving a royalty of 2s. a copy on his book, The Day's Work, now selling so briskly. On a circulation of 50,000 copies this royalty would give the author a return of £5,000. Add the value of the serial and American right and Mr. Kipling's receipts for this volume would be well over £10,000.

QUICK TRANSFORMATION.

It is a curious illustration of the strange transformation war can make in a community, that at Santiago de Cuba, where a few months ago bull fighting was the fashionable recreation, the wife of General Wood has organized a society for the prevention of cruelty to animals. American civilization has a vitality that makes it take root quickly.—Burlington Hawkeye.

Africa has very nearly 700 languages and this fact presents great difficulties to missionary effort.

MESSANGER SERVICE.

The Honolulu Messenger Service delivers messages and packages. Telephone 375.

Only one BEST bicycle. The '99 Cleveland. Come and see.

If you want a new carriage or your old one repaired call on W. W. Wright.

FINE REPAIR WORK.

When your Bicycle, Gun, Typewriter, or any article of fine mechanism, needs repairs, bring it to us and we will make it as good as new.

We employ only the best skilled help, guarantee all work, and call for and deliver it to any part of the city.

PEARSON & HOBSON

112 Fort Street. Telephone 565.

ARRIVED FROM THE ORIENT

THIRD OF THE TOYO KISEN
STEAMSHIPS.

The Hongkong Maru Comes Into Port
—Some of Her Passengers—Sails at
10 O'clock.

The Hongkong Maru, the third of the Toyo Kisen Kaisha steamships to call here, was sighted at 4 o'clock last evening, and came up to the Mail wharf about three hours later. The Hongkong Maru is a new vessel built on modern lines. Whatever may have been the experience on the Nippon Maru with her mixed complement of officers, the Hongkong Maru has had no trouble whatever, the best and pleasantest relations existing among her officers.

The Hongkong Maru is a vessel of 5,663 gross tonnage, and 3,355 net. Her length is 321 feet, breadth 48 feet, depth 23 feet. She left Yokohama February 18th. Her officers are: Commander, W. E. Filmer; chief officer, W. Smith; chief engineer, W. Wilkins; purser, J. Derby; surgeon, Dr. R. W. Brimacombe.

Purser Derby was formerly on the Doric. He is well known among the trans-Pacific traveling public and is a very popular officer.

The vessel brought only a small cargo for Honolulu. She has 292 Japanese immigrants, which were taken to quarantine this morning. The cabin passengers for Honolulu are Mr. and Mrs. K. J. Inanishi. Mr. Inanishi is the new manager of the Yokohama Specie bank. His wife was formerly Miss Ozawa, who has many friends in Honolulu.

Among the through passengers are Miss Z. A. Bunn and Miss Etta Montgomery, missionaries from India, who are returning to the United States for a vacation. Rev. and Mrs. F. P. Gilman and family, are also missionaries returning to the states. Rev. and Mrs. T. H. Houston will remain over in Honolulu for a short time on account of Mr. Houston's health. They have been engaged in missionary work for some time.

G. H. Holden is a Vermont and a lawyer, who has been to Manila in the interests of his firm, which makes a specialty of prosecuting pension, prize money and similar claims.

Camilo Cerruti is a San Francisco man, whose father was formerly Italian consul at San Francisco. He is a mining man and has been in Siberia examining mining property and the mineral resources there. Eugene Nicolles is another mining man who has been on a similar mission in Siberia.

L. A. Sargent is a naval cadet who went to Manila on the Monadnock and is returning now to take his examinations. S. Friedrich is a German merchant, traveling in the interest of the Oriental trade of his house. L. K. G. Smith is a man of leisure, who finds his recreation in traveling. He has been around the world a number of times.

The Hongkong Maru is scheduled to sail at 10 o'clock this evening for San Francisco.

DANIEL F. SANFORD.

The funeral of Daniel F. Sanford, one of the oldest residents of Honolulu, is taking place from the Masonic Temple at 3 o'clock. The remains will be interred in Nuuanu valley. Mr. Sanford died last evening. He had been ailing for some time.

Deceased had been for some time instructor in carpentering at the Reformatory school. There he was considered a valuable helper and to the town and country was a useful citizen.

NOT HONOLULU MEN.

The Charles Clark who testified in the alleged forgery case, is not the well known Hawaiian of that name nor the lawyer who carries the same letters on his shirt. This Clark is a sailor, or something of that sort, who was landed in the country about thirteen months ago.

ANOTHER ASS BRAYS.

Captain Milnor now Posing as an Expert Pathologist.

Captain Milnor, late of the City of Columbia, is proving himself as reliable a publicist as he was a navigator. The following interview from him has been sent out from Seattle:

"Seattle, February 12.—Captain Walter S. Milnor, who recently returned to Seattle after investigating the spreading of leprosy in the Hawaiian Islands, has reached the conclusion that in ten or fifteen years there will be an epidemic of the dread disease in the United States. He says it will be brought here by the United States troops who stopped over at Honolulu on their way to Manila. He says: 'With leprosy already introduced upon the islands it is not difficult to imagine how it succeeded in spreading so frightfully under the conditions existing. Into this vitiated atmosphere a lot of reckless, rollicking American soldiers were dumped for a while, and it is through carelessness of some in seeking dissipation that an outbreak of leprosy can be expected in the United States.'"

SUFFERED FOR FOURTEEN YEARS.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last I had tried Chamberlain's Pain Balm, which I did, and was immediately relieved, and in a short time cured. I am happy to say that it has not since returned.—Jose, Edgar, Germantown, Cal. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

SALE CONTINUED.
Kerr's bankrupt sale will be continued until Saturday. Bigger bargains than ever will be offered. Buy dry goods now and save money.

A GOOD THING.

There's one good thing when they feel dry
That business men cannot pass by,
For far and wide it's fame you hear,
They stop to drink of "Rainier" beer,
On draught or in bottle at Criterion.

WILLETT & GRAY'S SPIEL

SAY HAWAIIAN PLANTERS HAVE
ADVANTAGE.

No Growers in the United States so
Favored as They Are—Anticipate
Lower Figures for Centrifugals.

Willett & Gray's last letter to sugar men includes, besides the usual batch of information, comments at more or less length on the crop situations and prospects in Hawaii, Cuba, Porto Rico and the Philippines. Of Hawaii they say that the planters there, on account of having no duty, are more favored than any other producers of the United States. This statement will be taken with surprise here, as it has never been known in this country. If any other, that beet and cane growers of the United States were under even the usual heavy burden of taxation to the extent that frequently obtains in smaller countries.

The circular contains prognostications on the cash market which have not been borne out. Prices, in place of falling, have advanced. This is what they say:
The strength of the raw sugar market at the close of last week continued into the present with sales at a further advance of 1-16 cent per pound and basis of 4 1/2 cents for 96 test. Later, however, on a reactionary tendency of the European markets, the advance was lost on several sales made at 1-16 cents off, and the market steady and firm at the same quotation as a week ago.

"As regards the immediate future, there is a feeling that if Europe continues weak our markets may eventually sell off 1-16 cent per pound more, or say to 4 1/2 cents, particularly as we are now 1-16 cent above the parity of Europe. In fact, our quotations have already permitted sales of Peruvian crystals at basis of 4 1/2-6 cents. Transactions also include a steamer cargo of centrifugals from the new crop of Porto Rico, the planters there not yet deeming it desirable for some reason to keep the sugars back until action for free duty from that island is taken by our government."

This is what is said respecting the Hawaiian market:

"The Sandwich Islands appear to be fully awake to the great prospects they have before them of marketing their large crops of sugar without the payment of duties, an enormous advantage granted to them over any other sugar producers of the United States. The value of stocks in sugar corporations in the islands is naturally making very rapid advance."

THE MORNING STAR.

Missionary Packet Once More on Her
Way to the Carolines.

E. O. Hall & Son have received notice that the missionary packet Morning Star will arrive here the last of March or the first of April on her way to Micronesia.

Friends having papers or letters to send may get them ready in anticipation of her arrival.

The Star has lain in San Francisco since last summer, being afraid to visit the Carolines on account of the war. In the meantime Captain Bray has had her repaired and put in a new shape. Among her passengers to Kusaie will be Miss Wilson, of the Mission school there, who is well known in Honolulu.

TO MAY TERM.

The case of A. K. Eldredge vs. Sam Parker on contract, has been continued to the May term of the circuit court. This was upon motion of defendant.

JURIES DISCHARGED.

This afternoon Judge Stanley discharged the juries in circuit court until further order. Though the term has not quite expired by limitation the jury cases are finished and it is more than likely that the juries will not be called again.

ORCHESTRA REHEARSAL.

The rehearsal of the Amateur orchestra will take place tomorrow, Thursday evening, in the Kaumakapili church at 7:45 o'clock. Every member must be present.

D. B. SMITH RESIGNS.

D. B. Smith, who is about to leave the islands for an indefinite period, has sent in his resignation as a member of the board of immigration.

BOARD OF AGRICULTURE.

At the meeting of the board of agriculture to be held Friday morning several important matters relating to tree planting and the experiment station will be brought up. Silk culture will also be discussed.

ENJOYING THEMSELVES.

Passengers by the Garonne today started right in to enjoy themselves. Many took hacks and buggies and are off to the several points of interest about town. Others took the second plan of seeing the city first and looking over the business center and the residence sections.

THE SOPHY.

The Massachusetts supreme court has unanimously decided that theosophy is not religion.

HANS NOW OWNER.

Hans is now in full control of the bootblack stand at the entrance to the Union Art Gallery. Those who have patronized Hans in the past know that he is an expert at his business and will not allow anything but first class work to go away from his place. Now that he has a proprietary interest in the business he will try harder than ever to increase his trade by giving good work.

EXCLUSIVE NOVELTIES.

Complete assortment of advance styles and novelties have been received by N. S. Sachs Dry Goods Company, Ltd., in all departments. The varieties are larger than ever, while the prices are lower than ever. A visit to their store will repay you.

AMERICAN MESSENGER SERVICE
Masonic Temple. Telephone 444.

HAPPENINGS IN MANILA

PAPER ADVICES FROM WEST OF
AMERICA.

Signs of the Times Indicated the Recent
Uprising—Aguinaldo Would Not
Allow Travel.

Letters and papers received from Manila today were forwarded just before the recent outbreak, and of course tell nothing of the exciting events beginning with February 5th. The last paper bears date of January 29th. Letters are about the same.

All of the Hawaiian boys are getting along nicely at the time the letters were written. Harry Murray was in the brigade that later charged on and took the water works, and was doubtless in that fight.

Major Milsaps, editor of the War Cry and organizer of the Honolulu Salvation Army post, is holding meetings in the various regiments at Manila and organizing Salvation Army corps among them. A chapel tent has been put up in the Nebraska regiment for this purpose.

Sergeant C. A. Lampman, Company K, Third Artillery, of quite a party of comrades visited Aguinaldo at Malolos the last week in January to get passports to travel in the country. They were courteously but firmly refused. While in the rebel lines they were shadowed constantly, and there was every indication that the insurgents were preparing for some sort of a coup. At Malolos two Americans, who had wandered into the country without passports and had been captured, were turned over to the Lampman party, to be taken back to Manila.

The American of January 29th reports the arrest of sixteen natives at Manila for making the long been bladed knives known as the "bolo," with which they fight, and which have been declared by the authorities to be weapons of war. On the same day Richard Patterson was fined \$50 for the larceny of a small quantity of ammunition from the United States government. He is supposed to have sold the stuff to the insurgents, but proof of the fact could not be obtained. Patterson is an American who has been in Manila but a few months.

January 20th one of the guards in the Santa Cruz district, a member of B company, Thirteenth Minnesota, shot and mortally wounded a native. The wounded man was with a group of natives and when the guard approached all fled. The wounded man proved to be a captain in the insurgent army. He died next night in the hospital.

IMPURE FOODS AGAIN.

Most of the time of the board of health yesterday afternoon was taken up with discussion of the report of Inspector Johnstone on various articles of food examined by him. It was the same old story of diluted milk, bad butter, impure coffee, etc., which the board receives from time to time, but seems unable to handle.

Methods of remedying the evils were discussed, but nothing was done.

THE CABINET.

There was a short session of the available members of the cabinet this morning. The most important business was the consideration for leases in Hilo. Some were rejected and others were deferred.

PLAINS FIRE STATION.

H. F. Bertelmann will build the new fire station on the Plains near Punahou. Bids for the house were opened this morning with the following result: H. F. Bertelmann, \$3,969; J. H. Craig, \$4,347; Lucas Bros., \$4,812.

BONNIE JUDD HURT.

Will Probably Lose the Use of His Left Leg.

Bonnie Judd spent a bad night and is in very poor condition today. The tendons of the leg just below the left knee were completely severed by the kick of the horse yesterday afternoon. Immediately the muscles, or the tendons, above the knee drew up. It was impossible to connect this break again and the use of the leg in future is almost wholly despaired of.

Judd was leaving the Club stables in a brake about 3 o'clock yesterday afternoon, when the accident occurred. The horse he was driving stopped and kicked back, striking the young man just below the left knee as stated. He got out of the brake but could hardly stand. The tendons of the leg have since drawn up.

The accident is deplored by a large circle of Mr. Judd's friends in town. The loss of the use of his leg will be a sad misfortune.

THE WEATHER.

Punahou Observatory, 1:30 p. m. Light trades, cloudy and overcast, not likely to rain this evening. Morning minimum thermometer 70, midday maximum do 77; barometer, 30.08; rainfall, 0.02; humidity, 58; dew point, 59.

POINTS OF MERIT.

Strong, durable, easy running, simple attachments, all the result of constant study for many years, of men who have made a life study of perfecting the Singer sewing machine. With few equals, it has no superior, and is sold as low as any other first class sewing machine. Buy a Singer and you take no chances. If you doubt our word, ask your neighbor who has been using a Singer for the past ten or twenty years. For sale by B. Bergerson, agent, Bethel street.

ALWAYS THE BEST.

On every steamer Camarinos receives fresh goods from the Coast. His facilities at the Coast for securing the best on the market cannot be excelled. As for Hawaiian fruits and vegetables, he is fortunate in having a plantation of his own. When you cannot get what you wish in fruits and vegetables at Camarinos', King street, it is safe to conclude that it cannot be found in the city.

We estimate that every pair of the J. & M. shoes we sell, bring four new customers.

McINERNEY.

STOCK EXCHANGE ACTIVE

MANY SALES MADE ON THE
BOARD TODAY.

Hawaiian Agricultural New Stock
Comes on to the Market—Strong Advance in Several Securities.

This morning's session of the Stock Exchange was an active one. One hundred and fifty-four shares of stock exchanged hands during the session. The aggregate of sales was \$19,322.50. The new stock of the Hawaiian Agricultural Co. came into the market today. The capital is now \$1,000,000, instead of \$500,000. The quotations are 25 and 250, bid and asked, instead of 450 and 500 as before the increase. Ewa sold for 300; American assessable was pushed up to 44 and Oahu to 110.

Sales: On the board, 10 American assessable, 42 1/2; 10 Ewa, 300; 5 Oahu assessable, 157 1/2; 10 Oahu paid up, 195; 14 Oahu paid up, 125; 5 Oahu paid up, 195; 15 Oahu paid up, 195; 10 Oahu, 107 1/2; 15 Oahu, 119; 50 Waimae, 125; 10 American assessable, 44.

Bid: American assessable, 43; American paid up, 111; Ewa, 300; Hawaiian Agricultural, 225; Hawaiian Sugar, 127 1/2; Kahuku, 125 1/2; Olowalu, 127 1/2; Pacific, 232 1/2; Paia, 250; Pepeekeo, 180; Wilder Steamship, 16; Oahu Railway stock, 80; Government 6's, 100; Government 5's, 98 1/2; Postal Savings, 95; Oahu Railway bonds, 100 1/2.

Asked: American assessable, 45;
